

COLPOSCOPES

SURGICAL MICROSCOPES

DIGITAL, CO-OBSERVATION
& ACCESSORIES

OUR COMPANY

JL Optical recently celebrated its 18th year anniversary in the microscope business. Recognized as a service leader in the industry, JL Optical performs complete preventive maintenance and repair services on microscopes of all kinds, comparators, phoroptors, slit lamps, microtomes, and cryostats. No job is too large or too small for our company. We service equipment in all areas: industries, universities, hospitals, laboratories, clinics, veterinary hospitals, and individual equipment. George Walker, President of JL Optical, with 32 years experience in the optical instrument business, started JL Optical with the goal to keep existing equipment working through exceptional maintenance.

18
YEARS OF
EXCELLENCE
1992 - 2010

Although JL Optical was founded solely as a service company, our successful service growth has afforded the opportunity to offer a full line of DFV surgical microscopes, colposcopes, and slit lamps. We represent a number of manufacturers for accessories, replacement items, video, digital equipment, and documentation for surgical and laboratory scopes.

SERVICE IS OUR BUSINESS

GET IN FOCUS AND SEE THE DIFFERENCE!

- Is your microscope out of focus?
- Tired of trying to see through dirt and film on your lenses?
- Are you getting headaches from using your optical equipment?

Your optical equipment needs to be cleaned regularly just like windows and eyeglasses. Protect your investment. Optical equipment service is recommended at least once per year.

SERVICE BENEFITS

- Trained and experienced technicians only. Nikon Authorized Service Station, Olympus Authorized Service Station, DFV and WESCO Authorized Service Providers. We service all brands and models and work with all manufacturers.
- Flexible Service Plans available to suit your maintenance needs.
- Detail oriented—we strive for perfection to get your microscope in top shape.
- Real optical equipment service—we won't try to sell you something you don't need!
- Education and suggestions on use and care. Microscope training classes available at your site.
- On site services nationwide. We bring the service to you—no packing and shipping.
- Emergency service available.

SERVICE PLANS

Standard or specially tailored service plans are available to suit our customer's needs. Service rates are based on the type of equipment, quantity and the accessories you have.

Plan A

One time Preventive Maintenance which includes among other functions, inspection of entire instrument, cleaning of all exposed areas, cleaning of lenses, prisms, filters, mirrors, minor repairs, adjustment of scope and lamps, and 'in service' time with users, if requested. When we're finished the equipment will look new, inside and out. Parts not included and only with customer approval.

Plan B

Complete Preventive Maintenance as described in Plan A, plus: Complete maintenance for 1 full year, to include interim adjustments and cleaning as needed, and repairs to entire instrument itself. Includes interim adjustments and minor repairs of cameras and accessories. Priority service. Parts are at additional cost and only with customer approval. A free initial inspection of equipment is required for Plan B. If required and approved, equipment would be brought to original specifications using Plan A.

Specialized Plans

JL Optical offers full coverage plans for large organizations. We keep a database for our customers with an inventory of equipment showing location, accessories and history. Call for details. Our experienced service personnel will work with you to meet your needs.
